Hi, Chris.

Weds afternoon tech meeting at Pyrites Way office: Tom Lae and I (Tom may want Trudy and Mike on the phone)

Thurs afternoon VI tour: Dan Stralka, Lilian Abreu, Matt Plate, Pete Phillips, and I

Requested building walk throughs on VI tour: 20001, 20004, 20005, 20015, 20019, 20016, Area 38

Requested drive-by building tours: AMPAC, C29/C41 & Central Disposal Area

Can you please let us know where and when to meet you Thursday afternoon? Lilian will need to watch the safety video.

Thank you, Chris,
Lynn

Chris,
I wasn't on this email chain—so just seeing it now. But we still need to do the VI tour Thurs afternoon (not morning) as we planned to limit the time commitment for those traveling that day. We had to make travel arrangements in advance, and still have internal meetings to attend Fri in Sacramento. I left you a voice mail also; I can be at tech meetings Weds afternoon or Thurs morning, as needed. Thanks,
Lynn

Wed. is better for me for the technical discussions. I put Pete MacNicholl back on this email string as he is on the early emails.

I'd like to limit our meeting to Thursday (possibly AM?) but I do have a few additions:

- Updates to ARA and FYR Issues/Recommendations tables
- Update on SW corner of property OU3, Well 3592/Inner Barrier capture evaluation and new cross-sections
- Progress on OU5 Z3/GET AB ozone issues
- Update OU5 Z1 aquifer characterization/sentinel well relative Town Well

Thanks and have a good weekend,
Daewon

Subject: RE: [EXTERNAL] Aerojet May Tech Meeting schedule

We are hopeful that we can get everything in on the 17th. So far, we do not have as much to present for OU-3/OU-5 as we did in March. Agenda items I am thinking of right now include:

- update on the 2018 drilling schedule,
- new wells installed and new wells sampled since the March Meeting
- progress update on mass flux analysis/proposal of OU-5 mass removal metrics analysis approach
- discussion of recently received OU-5 Annual Report comments
- discussion of potential conceptual model (layering scheme) revisions for the eastern portion of the site (Bring Area 40 into sitewide layering scheme)
- discussion of potential Zone 3 numerical model update

Whether or not we can get everything in Thursday afternoon depends on whether or not there are a lot of other topic requests. Please let us know if there are any requests so we can prepare the Agenda and so we can decide if we need another day.

Thanks

I am ok with the 17th; however, I want to hear back from Peter on whether the comments being received by the Community (especially the CAG) regarding Area 40 requires us to meet prior to the CAG meeting to discuss comments to date and prep for questions at the CAG.

Hello, Chris, Pete, Alex.

Could we please plan to have any Area 40, IOU, or site-wide VI-related tech meetings during the day on Thurs 17 May? We have the CAG Weds night 16 May and then the Area 40 Community Meeting Thurs night 17 May.

Thanks,
Lynn
